SAMPLE

PART B

Definitions & Interpretation

Definitions: The terms defined below are important terms which apply under this Policy. These terms are used with initial capitals in the Policy Document and shall have the meaning ascribed to them below wherever they appear in the Policy Document:

In this Policy, “**you**”, “**your**”, or “**yours**” refers to the Policy owner or the Policyholder.

“**We**”, “**us**”, “**our**”, or “**the Company**” refers to Generali Central Life Insurance Company Limited, or any of its successors.

All references to individuals in this document are intended to be gender-neutral and apply equally to all genders. Terms such as ‘Policyholder’, ‘Life Assured’, and ‘Medical Practitioner’ are used inclusively.

- 1) “**Age**” at any time is the Age last birthday, that is, the Age in complete years at that time.
- 2) “**Annualized Premium**” means the premium amount payable in a year excluding the taxes, Rider premiums and underwriting extra premium on Riders, if any, as specified in the Schedule.
- 3) “**Assignment**” is the process of transferring the rights and benefits to an Assignee, in accordance with the provisions of Section 38 of Insurance Act, 1938, as amended from time to time.
- 4) “**Assignee**” is the person to whom the rights and benefits are transferred by virtue of an Assignment, in accordance with the provisions of Section 38 of Insurance Act, 1938, as amended from time to time.
- 5) “**Base Policy**” means the Policy contract to which this Rider is attached.
- 6) “**Critical Illness**” means any illness, medical event or surgical procedure specifically defined in Annexure I whose signs or symptoms first commences post the Waiting Period.
- 7) “**Date of Commencement of Policy**” is the start date of the Policy. The Date of Commencement of Policy is stated in the Policy Schedule.
- 8) “**Death Benefit**” is the benefit payable under the Rider, in case of diagnosis of Critical Illness in Life Assured, subject to the exclusions as specified under Part C.
- 9) “**Grace Period**” for other than single premium policies means the time granted by the Company from the due date of payment of premium, without any penalty or late fee, during which time the Policy is considered to be In-force with the risk cover without any interruption, as per the terms & conditions of the Policy. The Grace Period for payment of the premium shall be: fifteen (15) days, where the Policyholder pays the premium on a monthly basis and thirty (30) days in all other cases.
- 10) “**In-force**” means a Policy in which all the due premiums have been paid and the premiums are not outstanding.
- 11) “**IRDAI**” means the Insurance Regulatory and Development Authority of India.
- 12) “**Life Assured**” is the person in relation to whom the life / other insurance covers are granted under the Policy.

Generali Central Linked Critical Illness Rider

Non- Par, Linked, Health Individual, Pure Risk Premium Rider

Date:

UIN: 133A057V01

Part B

13) **“Medical Practitioner”** means a person who holds a valid registration from the Medical Council of any State or Medical Council of India or Council for Indian Medicine or for Homeopathy set up by the Government of India or a State Government and is thereby entitled to practice medicine within its jurisdiction; and is acting within the scope and jurisdiction of his license; but excluding the Physician who is:

- Insured/Policyholder himself or an agent of the Insured
- Insurance Agent, business partner(s) or employer/employee of the Insured or
- A member of the Insured's immediate family.

14) **“Nomination”** is the process of nominating a person(s) in accordance with provisions of Section 39 of the Insurance Act, 1938 as amended from time to time.

15) **“Nominee”** shall mean the person or persons appointed by the Policyholder to receive the admissible benefits, in the event of death of the Life Assured during the Policy Term.

16) **“Policy”** means the contract of insurance entered into between You and Us as evidenced by the Policy Document.

17) **“Policyholder”** is the person who takes out the Policy, is the owner of the Policy and is referred to as the 'proposer' in the proposal form. The Policyholder need not necessarily be the same person as the Life Assured.

18) **“Policy Anniversary”** refers to the same date each year during the Policy Term, as the Date of Commencement of Policy.

19) **“Policy Cancellation Value”** means an amount, if any, that becomes payable in case of cancellation in accordance with the terms and conditions of this policy

20) **“Policy Document”** means this Policy Document, the Proposal Form, the Schedule and any additional information or documentation provided to Us in relation to the proposal form, any endorsements issued by Us and any Riders attached to this Policy.

21) **“Rider Term”** means the period specified in the Schedule which is the number of years from the Rider commencement date to the maturity date.

22) **“Revival”** means restoration of the Policy, which was discontinued due to the non-payment of premium, by the Company with all the benefits mentioned in this Policy Document, if any, upon the receipt of all the premiums due and other charges or late fee, if any, as per the terms and conditions of this Policy, upon being satisfied as to the continued insurability of the insured or Policyholder on the basis of the information, documents and reports furnished by You, in accordance with the Company's Board Approved Underwriting Policy.

23) **“Revival Period”** means the period of three (3) consecutive complete years from the date of first unpaid premium.

24) **“Regular Premium”** means the amount of premium payable by the Policyholder in a Policy Year, excluding the taxes if any.

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

Part B

25) “**Rider**” means a Rider contract which is attached to and forms a part of the Base Policy. The Schedule will specify whether any Riders are applicable under the Base Policy.

26) “**Rider Sum Assured**” means an amount payable on occurrence of a specified event covered under the Rider and is an additional benefit to the benefit under the Base Policy.

27) “**Schedule**” means the Policy Schedule issued by Us for the Base Policy, together with any amendments to the Schedule which may be issued from time to time.

28) “**Surrender**” means the withdrawal/termination of the Rider.

29) “**Surrender value**” means an amount, if any, that becomes payable on Surrender of a Rider during its term, in accordance with the terms and conditions of the Rider.

30) “**Survival period**” means the period of 30 days commencing from the date of first diagnosis of a Critical Illness that the Policyholder has to survive to be eligible for Critical Illness benefit.

31) “**Total Premium Paid**” means total of all the premium paid, excluding any extra premium and taxes, if collected explicitly.

32) “**Waiting period**” means a period of 90 days starting from Date of Commencement of Policy during which no benefits are payable under the respective Benefit Options chosen.

Interpretation:

- 1) References in this Policy to the singular shall include the plural and vice versa.
- 2) References in this Policy to one gender shall include the other gender.
- 3) References in this Policy to any statutes, rules, regulations or guidelines shall include any re-enactments or amendments to the same.
- 4) Section/paragraph headings are for ease of reference only and shall not have any interpretative value.

Words and expressions used in this Policy but not defined herein shall, unless the context specifies otherwise, have the same meaning as defined in the Insurance Act 1938, as amended from time to time, and/or the rules/regulations/guidelines made thereunder and as amended from time to time.

PART C

1. INTRODUCTION

This document provides details of the terms & conditions of the Policy named in your Policy Schedule. This Policy is provided to you by Generali Central Life Insurance Company Limited. Taken together with your Policy Schedule and any endorsement/s thereon, this document forms the terms of the contract between You and Us.

1.1 Rider Benefits

A. Benefits:

In case the Life Assured is diagnosed to be suffering from one of the Critical Illness/conditions covered under this Rider during the term of the Rider, an amount equal to the Rider Sum Assured shall be payable, provided all due premiums till the date of death are paid and the Policy is In-force.

The Rider Sum Assured is payable if the Life Assured survives for 30 days after such diagnosis.

The cover under the base plan or any other riders taken will continue even after a claim under this rider is paid. However, the Policyholder will not be covered under this rider henceforth.

- i. There are three (3) options in this rider. The policyholder can choose any one of these options:
 - (a) 10 CI – 10 Critical Illnesses are covered
 - (b) 30 CI – 30 Critical Illnesses are covered
 - (c) 60 CI – 60 Critical Illnesses are covered

Details of Critical Illness covered under 3 variants:

*Please refer to Annexure I for definitions of Critical Illness.

ii. The Policyholder has following options to receive Rider Sum Assured:

- Lump sum Benefit- Rider Sum Assured will be payable as lump sum.
- Income for the period chosen (from 2 to 10 years) - The income will be paid starting from the date of occurrence of insured event at a frequency (Yearly / Half Yearly / Quarterly / Monthly) and for the income period chosen. The payment frequency can't be changed once the regular income commences.
- Combination of lump sum and income for the income period chosen (from 2 to 10 years)

The Yearly income is calculated as the product of Rider Sum Assured and Instalment Factor provided below. As the instalment factors are on monthly basis, the factors need to be converted annually by applying a multiplication factor of 12.

Yearly Income (a) = Rider Sum Assured * Instalment Factor * 12

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

PART C

Year	Instalment Factor
1	8.5775%
2	4.4036%
3	3.0136%
4	2.3195%
5	1.9039%
6	1.6275%
7	1.4307%
8	1.2835%
9	1.1695%
10	1.0786%

The default option to receive Rider Sum Assured is lump-sum benefit. The Policyholder can change it to any of the options during the Rider Term but before the occurrence of insured event.

The regular income instalments for frequencies other than annual shall be as specified below, where the yearly income (calculated above) is adjusted with the income modal loading factor:

Frequency	Income instalment (per frequency)
Half-yearly	98% of Yearly Income x $\frac{1}{2}$
Quarterly	97% of Yearly Income x $\frac{1}{4}$
Monthly	96% of Yearly Income x $\frac{1}{12}$

The Rider will terminate on payment of Rider Sum Assured.

B. Maturity Benefit:

No Maturity Benefit shall be payable

C. Exclusions:

i. Exclusions for Critical Illness:

- Any Illness, sickness or disease other than those specified as Critical Illnesses under this Rider;
- Any Critical Illness caused by any Pre-existing Disease (PED) or any complications arising therefrom.

Pre-existing Disease: It means any condition, ailment, injury or disease:

That is/are diagnosed by a physician within 36 months prior to the effective date of the policy issued or its reinstatement by the insurer or

For which medical advice or treatment was recommended by, or received from, physician within 36 months prior to effective date of the policy or its reinstatement.

Reinstatement means the revival of policy post expiry of grace period.

No Critical Illness benefits shall be payable for any condition(s) which is a direct or indirect result of any pre-existing conditions unless Life Insured has disclosed the

PART C

same at the time of proposal or date of revival whichever is later, and the Company has accepted the same.

- c. Any Critical Illness caused due to use or misuse of alcohol, drugs or any addictive substance and consequences thereof.
- d. Any Critical Illness caused due to narcotics used by the Life Assured unless taken as prescribed by a registered Medical Practitioner,
- e. Any Critical Illness caused due to intentional self-injury, suicide or attempted suicide
- f. Any Critical Illness caused by or arising from or attributable to a foreign invasion, act of foreign enemies, hostilities, warlike operations (whether war be declared or not or while performing duties in the armed forces of any country during war or at peace time), civil war, public defense, rebellion, revolution, insurrection, military or usurped power;
- g. Any Critical Illness caused by ionizing radiation or contamination by radioactivity from any nuclear fuel (explosive or hazardous form) or from any nuclear waste from the combustion of nuclear fuel or caused by nuclear, chemical or biological attack.
- h. Any Critical Illness caused by Congenital External Anomalies, inherited disorders or any complications or conditions arising therefrom including any developmental conditions of the Insured;
- i. Any Critical Illness caused by any treatment necessitated due to participation as a professional in hazardous or adventure sport, including but not limited to para jumping, rock climbing, mountaineering, rafting, motor racing, horse racing or scuba diving, hand gliding, sky diving, deep sea diving etc.
- j. Any Critical Illness caused by any treatment necessitated due to participation by the Life Assured in any flying activity, except as a bona fide, fare- paying passenger of a recognized airline flying on regular routes and on a scheduled timetable.
- k. Any Critical Illness caused by Medical treatment traceable to childbirth (including complicated deliveries and caesarean sections incurred during hospitalization) except ectopic pregnancy. Any Critical Illness caused due to miscarriages (unless due to an accident) and lawful medical termination of pregnancy during the policy period.
- l. Any Critical Illness caused by any unproven/ experimental treatment, service and supplies for or in connection with any treatment. Unproven/ experimental treatments are treatments, procedures or supplies that lack significant medical documentation to support their effectiveness.
- m. Any Critical Illness based on certification/diagnosis/treatment from persons not registered as Medical Practitioners or from a Medical Practitioner who is practicing outside the discipline that he/ she is licensed for.
- n. Any Critical Illness caused due to any treatment, including surgical management, to change characteristics of the body to those of opposite sex.
- o. Any Critical Illness caused due to cosmetic or plastic surgery or any treatment to change the appearance unless for reconstruction following an Accident, Burn(s), or Cancer or as part of medically necessary treatment to remove a direct and immediate health risk to the insured. For this to be considered a medical necessity, it must be certified by the attending Medical Practitioner.
- p. Any Critical Illness caused due to surgical treatment of obesity that does not fulfil all the below conditions:
 1. Surgery to be conducted is upon the advice of the Medical Practitioner

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

PART C

2. The Surgery / Procedure conducted should be supported by clinical protocols.
3. The member has to be 18 years of age or older and
4. Body Mass Index (BMI):
 - greater than or equal to 40 or
 - greater than or equal to 35 in conjunction with any of the following severe co-morbidities
 - Obesity related cardiomyopathy
 - Coronary heart disease
 - Severe Sleep Apnea
 - Uncontrolled Type 2 Diabetes

q. Any Critical Illness caused by treatment directly arising from or consequent upon any Life Assured committing or attempting to commit a breach of law with criminal intent.

r. In the event of the death of the Life Assured within the stipulated survival period as set out in the policy terms and conditions.

s. Any Critical Illness caused by sterility and infertility. This includes:

1. Any type of contraception, sterilization
2. Assisted Reproductive services including artificial insemination and advanced reproductive technologies such as IVF, ZIFT, GIFT, ICSI
3. Gestational Surrogacy
4. Reversal of sterilization

ii. **Other Exclusions:**

The Company shall not be under any obligation to provide cover and We shall not be liable to pay any claim or provide any benefit hereunder to the extent that the provision of such cover, payment of such claim or provision of such benefit would expose the insurer to any sanction, prohibition or restriction under OFAC, United Nations resolutions or the trade or economic sanctions, laws or regulations of the European Union, United States of America or as directed by the Government of India, from Time to time.

2. PREMIUM

2.1 Payment of Premium

Instalment premiums are required to be paid on the premium due dates until such time as stipulated in the Policy Schedule.

The premiums shall be deemed to have been paid only when they have been received at the Company's head office or any other office authorized by it for that purpose.

The premiums shall be adjusted on the due date where they have been received on or before the due date. If received after the due date, they will be adjusted on the date of such receipt.

2.2 Change in Premium Payment Frequency

- a) Single premium – As per Base Policy

Generali Central Linked Critical Illness Rider

Non- Par, Linked, Health Individual, Pure Risk Premium Rider

Date:

(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

PART D

1) NON-FORFEITURE PROVISIONS:

1.1 Lapse:

Limited Pay:

- (a) If all due Rider premiums for the first Policy year has not been paid in full within the Grace Period, the Rider shall lapse and will have no value.
- (b) All risk cover ceases while the Rider is in lapsed status.
- (c) The Policyholder has the option to revive a lapsed Rider within three (3) years (along with Base Policy) from the due date of first unpaid premium.
- (d) In case the Rider is not revived during the Revival Period, no benefit shall be payable at the end of Revival Period, and the Rider will terminate thereafter.

Single / Regular Pay:

Not Applicable

1.2 Paid-up Benefit:

No Paid-up benefits.

1.3 Surrender Benefit

Not Applicable

1.4 Policy Cancellation Value

For Regular Pay where premium payment term is equal to policy term:

No Policy Cancellation Value shall be payable in respect of regular pay policies.

For Limited/Single Pay where premium paying term is less than policy term:

Policy Cancellation Value shall be payable upon the Policyholder applying for the same before the stipulated date of maturity.

Policy Cancellation Value gets acquired immediately upon payment of premium in case of Single Pay and upon payment of premiums for at least 1 full year and after completion of first policy year in case of Limited Pay.

Policy Cancellation Value is equal to:

- (a) Regular Pay - No benefit is payable
- (b) Limited Pay - $75\% * (\text{Total Premiums Paid excluding first year premium (s)}) * (1 - \text{rider premium paying term / Rider Term}) * (\text{Balance Rider Term / Rider Term})$.

PART D

- (c) Single Pay - $75\% * (\text{Total Premiums Paid}) * (1 - \text{rider premium paying term / Rider Term}) * (\text{Balance Rider Term / Rider Term})$.

Riders may be surrendered / discontinued separately, or it gets surrendered / discontinued if the Base Policy is surrendered / discontinued or made paid-up.

1.5 Waiting Period

- (a) A waiting period of 90 days is applicable from the Date of Commencement of Policy or date of Revival or reinstatement which is later.
- (b) No benefit will be payable if there is diagnosis of any Critical Illness or any signs or symptoms related to any Critical Illness occurs within the Waiting Period as applicable from either the Date of Commencement of the Policy or date of Revival whichever is later.
- (c) The Waiting Period is not applicable if a covered Critical Illness condition happens due to accident.

1.6 Survival Period

Any valid claim is payable subject to fulfilling all the below criteria:

- (a) 30 days survival period from the date of diagnosis of any insured Critical Illness condition, unless a separate Survival Period is specified for any disease/condition in the Critical Illness definitions.
- (b) Signs and symptoms relevant to the claimed Critical Illness condition must have been present and documented before death.
- (c) All investigations must confirm that the diagnosis of claimed Critical Illness condition has been done before the death of the insured.

1.7 Revival:

Regular / Limited Pay:

- (a) Revival Period means the period of three (3) consecutive years from the due date of first unpaid Rider premium during which period the Policyholder is entitled to revive the Rider which was discontinued due to the non-payment of premium.
- (b) Revival of a Policy cannot be done once the Rider Term is over.
- (c) The Revival will be considered on receipt of application from the Policyholder along with the proof of continued insurability of Life Assured and on payment of all overdue Rider premiums with interest, if any. The Company, however, reserves the right to accept original terms, accept with modified terms or decline the Revival of a discontinued Rider. The Revival of the discontinued Rider shall take effect only after the same is approved by the Company and is specifically communicated to the Policyholder.
- (d) The interest rate applicable on Revival should be the same as that applicable in the Base Policy.
- (e) If a premium is not paid beyond the Grace Period and subject to the Policy and Rider not having been surrendered, it may be revived within the Revival Period applicable to the Base Policy after the due date of first unpaid premium and before the date of maturity, subject to:
 - i. Policyholder's written application for revival.
 - ii. Production of Insured's current health certificate and other evidence of insurability, satisfactory to the Company; and
 - iii. Payment of all overdue premiums with interest.

PART D

- (f) Any evidence of insurability and medical requirements requested at the time of Revival will be based on the prevailing underwriting guidelines duly approved by the Board. The Revival will be based on the health declaration by the life insured and the Board approved underwriting Policy.
- (g) The interest rate applicable on Revival should be the same as that applicable in the Base Policy.

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

- (h) If the Base Policy had lapsed, on Revival of the Base Policy on repayment of all due premium within the Revival Period, the Rider would get revived along with the Base Policy. The Rider cannot be revived independently and can only be revived along with the Revival of the Base Policy.
- (i) Any Revival shall only cover loss or insured events which occurs after the Revival date subject to the Waiting Period applicable for the respective Rider. Upon Revival of the Rider, all benefits shall be restored and be applicable with effect from the date of Revival.
- (j) If the Rider is not revived along with the Base Policy, the Rider shall be terminated by paying any residual Policy Cancellation Value as on the date of Revival of the Base Policy and Revival of such terminated Rider will not be allowed at a later stage.

Annexure I

Definitions of Critical Illness (CI) conditions

1. CANCER OF SPECIFIED SEVERITY

- I. A malignant tumor characterized by the uncontrolled growth and spread of malignant cells with invasion and destruction of normal tissues. This diagnosis must be supported by histological evidence of malignancy. The term cancer includes leukemia, lymphoma, and sarcoma.
- II. The following are excluded –
 1. All tumors which are histologically described as carcinoma in situ, benign, pre-malignant, borderline malignant, low malignant potential, neoplasm of unknown behavior, or non-invasive, including but not limited to: Carcinoma in situ of breasts, Cervical dysplasia CIN-1, CIN -2, and CIN-3.
 2. Any non-melanoma skin carcinoma unless there is evidence of metastases to lymph nodes or beyond.
 3. Malignant melanoma that has not caused invasion beyond the epidermis.
 4. All tumors of the prostate unless histologically classified as having a Gleason score greater than 6 or having progressed to at least clinical TNM classification T2N0M0.
 5. All Thyroid cancers histologically classified as T1N0M0 (TNM Classification) or below.
 6. Chronic lymphocytic leukemia less than RAI stage 3
 7. Non-invasive papillary cancer of the bladder histologically described as TaN0M0 or of a lesser classification,
 8. All Gastro-Intestinal Stromal Tumors histologically classified as T1N0M0 (TNM Classification) or below and with mitotic count of less than or equal to 5/50 HPFs.

2. MYOCARDIAL INFARCTION (First Heart Attack of specific severity)

- I. The first occurrence of heart attack or myocardial infarction, which means the death of a portion of the heart muscle as a result of inadequate blood supply to the relevant area.

The diagnosis for Myocardial Infarction should be evidenced by all of the following criteria:

1. A history of typical clinical symptoms consistent with the diagnosis of acute myocardial infarction (For e.g., typical chest pain)
2. New characteristic electrocardiogram changes
3. Elevation of infarction specific enzymes, Troponins, or other specific biochemical markers.

- II. The following are excluded:
 1. Other acute Coronary Syndromes
 2. Any type of angina pectoris
 3. A rise in cardiac biomarkers or Troponin T or I in absence of overt ischemic heart disease OR following an intra-arterial cardiac procedure.

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

3. OPEN CHEST CABG

I. The actual undergoing of heart surgery to correct blockage or narrowing in one or more coronary artery(s), by coronary artery bypass grafting done via a sternotomy (cutting through the breastbone) or minimally invasive keyhole coronary artery bypass procedures. The diagnosis must be supported by a coronary angiography and the realization of surgery has to be confirmed by a cardiologist.

II. The following are excluded:

Angioplasty and/or any other intra-arterial procedures

4. OPEN HEART REPLACEMENT OR REPAIR OF HEART VALVES

I. The actual undergoing of open-heart valve surgery is to replace or repair one or more heart valves, as a consequence of defects in, abnormalities of, or disease affected cardiac valve(s). The diagnosis of the valve abnormality must be supported by an echocardiography and the realization of surgery has to be confirmed by a specialist medical practitioner. Catheter based techniques including but not limited to, balloon valvotomy/valvuloplasty are excluded.

5. COMA OF SPECIFIED SEVERITY

I. A state of unconsciousness with no reaction or response to external stimuli or internal needs. This diagnosis must be supported by evidence of all of the following:

1. No response to external stimuli continuously for at least 96 hours;
2. Life support measures are necessary to sustain life; and
3. Permanent neurological deficit which must be assessed at least 30 days after the onset of the coma.

II. The condition has to be confirmed by a specialist medical practitioner. Coma resulting directly from alcohol or drug abuse is excluded.

6. Kidney Failure Requiring Regular Dialysis

End stage renal disease presenting as chronic irreversible failure of both kidneys to function, as a result of which either regular renal dialysis (hemodialysis or peritoneal dialysis) is instituted, or renal transplantation is carried out. Diagnosis has to be confirmed by a specialist medical practitioner.

7. STROKE RESULTING IN PERMANENT SYMPTOMS

I. Any cerebrovascular incident producing permanent neurological sequelae. This includes infarction of brain tissue, thrombosis in an intracranial vessel, haemorrhage and embolisation from an extracranial source. Diagnosis has to be confirmed by a specialist medical practitioner and evidenced by typical clinical symptoms as well as typical findings in CT Scan or MRI of the brain. Evidence of permanent neurological deficit lasting for at least 3 months has to be produced.

II. The following are excluded:

Generali Central Linked Critical Illness Rider
Non- Par, Linked, Health Individual, Pure Risk Premium Rider
Date:
UIN: 133A057V01

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

1. Transient ischemic attacks (TIA)
2. Traumatic injury of the brain
3. Vascular disease affecting only the eye or optic nerve or vestibular functions.

8. MAJOR ORGAN/BONE MARROW TRANSPLANT

The actual undergoing of a transplant of:

- I. One of the following human organs: heart, lung, liver, kidney, pancreas, that resulted from irreversible end-stage failure of the relevant organ, or
- II. Human bone marrow using haematopoietic stem cells. The undergoing of a transplant has to be confirmed by a specialist medical practitioner.

The undergoing of a transplant has to be confirmed by a specialist medical practitioner.

The following are excluded:

- I. Other stem-cell transplants.
- II. Where only islets of langerhans are transplanted

9. PERMANENT PARALYSIS OF LIMBS

Total and irreversible loss of use of two or more limbs as a result of injury or disease of the brain or spinal cord. A specialist medical practitioner must be of the opinion that the paralysis will be permanent with no hope of recovery and must be present for more than 3 months.

10. MOTOR NEURON DISEASE WITH PERMANENT SYMPTOMS

I. Motor neuron disease diagnosed by a specialist medical practitioner as spinal muscular atrophy, progressive bulbar palsy, amyotrophic lateral sclerosis or primary lateral sclerosis. There must be progressive degeneration of corticospinal tracts and anterior horn cells or bulbar efferent neurons. There must be current significant and permanent functional neurological impairment with objective evidence of motor dysfunction that has persisted for a continuous period of at least 3 months.

11. MULTIPLE SCLEROSIS WITH PERSISTING SYMPTOMS

I. The unequivocal diagnosis of Definite Multiple Sclerosis confirmed and evidenced by all of the following:

1. Investigations including typical MRI findings which unequivocally confirm the diagnosis to be multiple sclerosis and
2. There must be current clinical impairment of motor or sensory function, which must have persisted for a continuous period of at least 6 months.

II. Other causes of neurological damage such as SLE are excluded.

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

12. BENIGN BRAIN TUMOR

- I. Benign brain tumor is defined as a life threatening, non-cancerous tumor in the brain, cranial nerves or meninges within the skull. The presence of the underlying tumor must be confirmed by imaging studies such as CT scan or MRI.
- II. This brain tumor must result in at least one of the following and must be confirmed by the relevant medical specialist.
 1. Permanent Neurological deficit with persisting clinical symptoms for a continuous period of at least 90 consecutive days or
 2. Undergone surgical resection or radiation therapy to treat the brain tumor.
- III. The following conditions are excluded:

Cysts, Granulomas, malformations in the arteries or veins of the brain, hematomas, abscesses, pituitary tumors, tumors of skull bones and tumors of the spinal cord.

13. BLINDNESS

- I. Total, permanent and irreversible loss of all vision in both eyes as a result of illness or accident.
- II. The Blindness is evidenced by:
 1. Corrected visual acuity being 3/60 or less in both eyes or ;
 2. The field of vision being less than 10 degrees in both eyes.
- III. The diagnosis of blindness must be confirmed and must not be correctable by aids or surgical procedure.

14. DEAFNESS

I. Total and irreversible loss of hearing in both ears as a result of illness or accident. This diagnosis must be supported by pure tone audiogram test and certified by an Ear, Nose and Throat (ENT) specialist. Total means “the loss of hearing to the extent that the loss is greater than 90 decibels across all frequencies of hearing” in both ears.

15. END STAGE LUNG FAILURE

I. End stage lung disease, causing chronic respiratory failure, as confirmed and evidenced by all of the following:

1. FEV1 test results consistently less than 1 litre measured on 3 occasions 3 months apart; and
2. Requiring continuous permanent supplementary oxygen therapy for hypoxemia; and
3. Arterial blood gas analysis with partial oxygen pressure of 55mmHg or less ($\text{PaO}_2 < 55\text{mmHg}$); and
4. Dyspnea at rest.

16. END STAGE LIVER FAILURE

I. Permanent and irreversible failure of liver function that has resulted in all three of the following:

1. Permanent jaundice; and

Generali Central Linked Critical Illness Rider
Non- Par, Linked, Health Individual, Pure Risk Premium Rider
Date:
UIN: 133A057V01

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

2. Ascites; and
3. Hepatic encephalopathy.

II. Liver failure secondary to drug or alcohol abuse is excluded.

17. LOSS OF SPEECH

I. Total and irrecoverable loss of the ability to speak as a result of injury or disease to the vocal cords. The inability to speak must be established for a continuous period of 12 months. This diagnosis must be supported by medical evidence furnished by an Ear, Nose, throat (ENT) specialist.

II. All psychiatric related causes are excluded.

18. Loss of Limbs

The physical separation of two or more limbs, at or above the wrist or ankle level as a result of injury or disease. This will include medically necessary amputation necessitated by injury or disease. The separation has to be permanent without any chance of surgical correction. Loss of Limbs resulting directly or indirectly from self-inflicted injury, alcohol or drug abuse is excluded.

19. MAJOR HEAD TRAUMA

I. Accidental head injury resulting in permanent Neurological deficit to be assessed no sooner than 3 months from the date of the accident. This diagnosis must be supported by unequivocal findings on Magnetic Resonance Imaging, Computerized Tomography, or other reliable imaging techniques. The accident must be caused solely and directly by accidental, violent, external, and visible means and independently of all other causes.

II. The Accidental Head injury must result in an inability to perform at least three (3) of the following Activities of Daily Living either with or without the use of mechanical equipment, special devices or other aids and adaptations in use for disabled persons. For the purpose of this Benefit, the word "permanent" shall mean beyond the scope of recovery with current medical knowledge and technology.

III. The Activities of Daily Living are:

- i. Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means.
- ii. Dressing: the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances.
- iii. Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa.
- iv. Mobility: the ability to move indoors from room to room on level surfaces.
- v. Toileting: the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene.
- vi. Feeding: the ability to feed oneself once food has been prepared and made available.

IV. The following are excluded:

1. Spinal cord injury.

20. PRIMARY (IDIOPATHIC) PULMONARY HYPERTENSION

I. An unequivocal diagnosis of Primary (Idiopathic) Pulmonary Hypertension by a Cardiologist or specialist in respiratory medicine with evidence of right ventricular enlargement and the pulmonary artery pressure above 30 mm of Hg on Cardiac Cauterization. There must be permanent irreversible physical impairment to the degree of at least Class IV of the New York Heart Association Classification of cardiac impairment.

II. The NYHA Classification of Cardiac Impairment are as follows:

1. Class III: Marked limitation of physical activity. Comfortable at rest, but less than ordinary activity causes symptoms.
2. Class IV: Unable to engage in any physical activity without discomfort. Symptoms may be present even at rest.

III. Pulmonary hypertension associated with lung disease, chronic hypoventilation, pulmonary thromboembolic disease, drugs and toxins, diseases of the left side of the heart, congenital heart disease and any secondary cause are specifically excluded

21. THIRD DEGREE BURNS

There must be third-degree burns with scarring that cover at least 20% of the body's surface area. The diagnosis must confirm the total area involved using standardized, clinically accepted, body surface area charts covering 20% of the body surface area.

22. ALZHEIMER'S DISEASE

Progressive and permanent deterioration of memory and intellectual capacity as evidenced by accepted standardized questionnaires and cerebral imaging.

The diagnosis of Alzheimer's Disease must be confirmed by an appropriate consultant and supported by a Medical Practitioner appointed by Us. There must be significant reduction in mental and social functioning requiring the continuous supervision of the Insured Person. There must also be an inability of the Insured Person to perform (whether aided or unaided) at least three of the Activities of Daily Living, for a continuous period of at least 3 months:

For the purpose of this clause, Activities of Daily Living are defined as:

1. Washing – the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means.
2. Dressing – the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances.
3. Transferring – the ability to move from a bed to an upright chair or wheelchair and vice versa.
4. Toileting – the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene.

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

5. Feeding – the ability to feed oneself once food has been prepared and made available.
6. Mobility - the ability to move from room to room without requiring any physical assistance.

The following are excluded:

1. Any other type of irreversible organic disorder/dementia
2. Alcohol-related brain damage.

23. PARKINSON'S DISEASE

- I. The occurrence of Parkinson's Disease where there is an associated Neurological Deficit that results in permanent inability to perform independently at least three of the Activities of Daily Living, for a continuous period of at least 3 months:
- II. For the purpose of this clause, Activities of Daily Living are defined as:
 1. Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means
 2. Dressing: the ability to put on, take off, secure, and unfasten all garments and, as appropriate, any braces, artificial limbs, or other surgical appliances.
 3. Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa.
 4. Mobility: the ability to move indoors from room to room on level surfaces.
 5. Toileting: the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene.
 6. Feeding: the ability to feed oneself once food has been prepared and made available.

- III. The following is excluded:

Parkinson's Disease accompanied with drug and/or alcohol abuse.

24. Major Surgery of Aorta:

The actual undergoing of medically necessary major surgery for a disease of the aorta needing excision and surgical replacement of the diseased aorta with a graft. For the purpose of this definition aorta shall mean the thoracic and abdominal aorta but not its branches.

Traumatic injury of the aorta is excluded.

Surgery performed using only minimally invasive or intra-arterial techniques are excluded.

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

25. MYASTHENIA GRAVIS

An acquired autoimmune disorder of neuromuscular transmission leading to fluctuating muscle weakness and fatigability, where all of the following criteria are met:

1. Presence of permanent muscle weakness categorized as Class IV or V according to the Myasthenia Gravis Foundation of America Clinical Classification below; and
2. The diagnosis of Myasthenia Gravis and categorization are confirmed by a registered Medical Practitioner who is a neurologist.

Myasthenia Gravis Foundation of America Clinical Classification is as follows:

Class I: Any eye muscle weakness, possible ptosis, no other evidence of muscle weakness elsewhere.

Class II: Eye muscle weakness of any severity, mild weakness of other muscles.

Class III: Eye muscle weakness of any severity, moderate weakness of other muscles.

Class IV: Eye muscle weakness of any severity, severe weakness of other muscles.

Class V: Intubation needed to maintain airway.

The following are excluded:

1. Congenital myasthenic syndrome
2. Transient neonatal or juvenile myasthenia gravis

26. APLASTIC ANEMIA

Irreversible persistent bone marrow failure which results in anemia, neutropenia and thrombocytopenia requiring treatment with at least two (2) of the following:

1. Blood product transfusion.
2. Marrow stimulating agents.
3. Immunosuppressive agents; or
4. Bone marrow transplantation.

The diagnosis of Aplastic anemia must be confirmed by a bone marrow biopsy. At least two of the following values should be present:

1. Absolute Neutrophil count of 500 per cubic millimeter or less.
2. Absolute Reticulocyte count of 20,000 per cubic millimeter or less; and
3. Platelet count of 20,000 per cubic millimeter or less.

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

27. Loss of Independent Existence (cover up to age 74)

Confirmation by a Consultant Physician of the loss of independent existence due to illness or trauma, lasting for a minimum period of 6 months and resulting in a permanent inability to perform at least three of the Activities of Daily Living, with no hope of recovery. For the purpose of this clause, Activities of Daily Living are defined as:

1. Washing – the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means.
2. Dressing – the ability to put on, take off, secure, and unfasten all garments and, as appropriate, any braces, artificial limbs, or other surgical appliances.
3. Transferring – the ability to move from a bed to an upright chair or wheelchair and vice versa.
4. Toileting – the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene.
5. Feeding – the ability to feed oneself once food has been prepared and made available.
6. Mobility - the ability to move from room to room without requiring any physical assistance.

This condition must be confirmed by the company's approved doctor.

This benefit will be available only up to age 70 last birthday.

28. Progressive Scleroderma

A systemic collagen-vascular Illness causing progressive diffuse fibrosis in the skin, blood vessels and visceral organs. This diagnosis must be unequivocally supported by biopsy and serological evidence and the disorder must have reached systemic proportions to involve the heart, lungs or kidneys.

The following conditions are excluded:

- Localized scleroderma (linear scleroderma or morphea);
- Eosinophilic fasciitis; and
- CREST syndrome.

29. Other Serious Coronary Artery Diseases

Severe coronary artery disease in which at least three (3) major coronary arteries are individually occluded by a minimum of sixty percent (60%) or more, as proven by coronary angiogram only (non-invasive diagnostic procedures excluded).

For purposes of this definition, "major coronary artery" refers to any of the left main stem artery, left anterior descending artery, circumflex artery and right coronary artery (but not including their branches).

30. Severe Rheumatoid Arthritis

Widespread chronic progressive joint destruction with major deformity, where all of the following criteria are met:

Generali Central Linked Critical Illness Rider

Non- Par, Linked, Health Individual, Pure Risk Premium Rider

Date:

UIN: 133A057V01

- Unequivocal diagnosis of Rheumatoid Arthritis made based on the American College of Rheumatology criteria.
- Damage and deformity of at least 3 (three) of the following joints: hand (Meta phalangeal joints), wrist, elbow, knee, hip, or feet (metatarsophalangeal joints). Such deformity must be confirmed by imaging studies showing such changes; and

Disability resulting in the inability of the Insured to perform (whether aided or unaided) at least 3 of the following 6 “Activities of Daily Living” for a continuous period of at least 6 months.

Activities of Daily Living are defined as:

- a. Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means.
- b. Dressing: the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances.
- c. Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa.
- d. Mobility: the ability to move indoors from room to room on level surfaces.
- e. Toileting: the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene.
- f. Feeding: the ability to feed oneself once food has been prepared and made available.

31. Cardiomyopathy

An impaired function of the heart muscle, unequivocally diagnosed as Cardiomyopathy by a registered Medical Practitioner who is a cardiologist, and which results in permanent physical impairment to the degree of New York Heart Association Classification Class IV, or its equivalent, based on the following classification criteria:

Class IV - Inability to carry out any activity without discomfort. Symptoms of congestive cardiac failure are present even at rest. With any increase in physical activity, discomfort will be experienced. The Diagnosis of Cardiomyopathy has to be supported by echocardiographic findings of compromised ventricular performance. Irrespective of the above, Cardiomyopathy directly related to alcohol or drug abuse is excluded.

32. Infective Endocarditis

Inflammation of the inner lining of the heart caused by infectious organisms, where all of the following criteria are met:

1. Positive result of the blood culture proving presence of the infectious organism(s).
2. Presence of at least moderate heart valve incompetence (meaning regurgitant fraction of 20% or above) or moderate heart valve stenosis (resulting in heart valve area of 30% or less of normal value) attributable to Infective Endocarditis; and
3. The Diagnosis of Infective Endocarditis and the severity of valvular impairment are confirmed by a registered Medical Practitioner who is a cardiologist.

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

33. MEDULLARY CYSTIC DISEASE

Medullary Cystic Disease where the following criteria are met:

- i. The presence in the kidney of multiple cysts in the renal medulla accompanied by the presence of tubular atrophy and interstitial fibrosis.
- ii. Clinical manifestations of anemia, polyuria, and progressive deterioration in kidney function; and
- iii. The diagnosis of Medullary Cystic Disease is confirmed by renal biopsy along with specialist Medical Practitioner opinion.

The following are excluded.

- i. Isolated or benign kidney cysts are specifically excluded from this Benefit.
- ii. Any condition in which cysts are absent.

34. APALLIC SYNDROME

Universal non-functioning of the brain cortex, with the brain stem intact. Diagnosis of Apalllic Syndrome must be definitely confirmed by a registered Medical Practitioner who is also a neurologist and substantiated by clinical and investigation findings. This condition must be documented for a continuous period of at least one month.

35. CREUTZFELDT-JAKOB DISEASE (CJD)

A diagnosis of Creutzfeldt Jakob Disease must be made by a specialist Medical Practitioner who is a neurologist, and the diagnosis must be substantiated by CSF examination, EEG, CT Brain and MRI of the brain. There must be permanent clinical loss of the ability in mental, physical and social functioning for a minimum period of 30 days to the extent that permanent supervision or assistance by a third party is required.

36. Pneumonectomy (Surgical Removal of One Lung)

Complete surgical removal of the entire right or entire left lung necessitated by an illness or an Accident of the Insured. The surgery must be certified to be Medically Necessary by a Medical Practitioner who is a pulmonologist or thoracic surgeon.

37. Brain Surgery

The actual undergoing of surgery to the brain, under general anesthesia, during which a Craniotomy is performed. Burr hole and brain surgery as a result of an accident is excluded. The procedure must be considered necessary by a qualified specialist and the benefit shall only be payable once corrective surgery has been carried out.

38. Severe ulcerative colitis

Acute fulminant ulcerative colitis with life threatening electrolyte disturbances. All of the following criteria must be met:

Generali Central Linked Critical Illness Rider

Non- Par, Linked, Health Individual, Pure Risk Premium Rider

Date:

UIN: 133A057V01

- The entire colon is affected, with severe bloody diarrhea; and
- The necessary treatment is total colectomy and ileostomy; and
- The diagnosis must be based on histopathological features and confirmed by a registered Medical Practitioner who is a specialist in gastroenterology

39. Chronic Relapsing Pancreatitis

An unequivocal diagnosis of Chronic Relapsing Pancreatitis, made by a Medical Practitioner who is a specialist in gastroenterology and confirmed as a continuing inflammatory disease of the pancreas characterized by irreversible morphological change and typically causing pain and/or permanent impairment of function. The condition must be confirmed by pancreatic function tests and radiographic and imaging evidence.

Relapsing Pancreatitis caused directly or indirectly, wholly or partly, by alcohol is excluded.

40. Progressive Supranuclear Palsy-Resulting In Permanent Symptoms

Confirmed by a registered doctor who is a specialist in neurology of a definite diagnosis of progressive supranuclear palsy.

The condition must have resulted in irreversible and permanent neurological deficit which persist for at least 6 weeks and resulting in permanent inability to perform three or more Activities of Daily Living.

Activities of Daily Living are defined as:

- a. Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means.
- b. Dressing: the ability to put on, take off, secure, and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances.
- c. Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa.
- d. Mobility: the ability to move indoors from room to room on level surfaces.
- e. Toileting: the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene.
- f. Feeding: the ability to feed oneself once food has been prepared and made available.

41. Good Pastures Syndrome With Lung And Renal Involvement

Goodpasture Syndrome is an autoimmune disease in which antibodies attack the lungs and kidneys, leading to permanent lung damage and end stage kidney disease of eGFR <60 mL/min/ . The permanent damage should be for continuous period of at least 30 days. The diagnosis must be proven by kidney biopsy and confirmed by a specialist Medical Practitioner who is a rheumatologist.

Generali Central Linked Critical Illness Rider

Non- Par, Linked, Health Individual, Pure Risk Premium Rider

Date:

UIN: 133A057V01

42. Fulminant Viral Hepatitis

A sub-massive to massive necrosis of the liver by the Hepatitis virus, leading precipitously to liver failure. This diagnosis must be supported by all of the following:

- a. Rapid decreasing of liver size.
- b. Necrosis involving entire lobules, leaving only a collapsed reticular framework.
- c. Rapid deterioration of liver function tests.
- d. Deepening jaundice; and
- e. Hepatic encephalopathy.

Acute Hepatitis infection or carrier status alone does not meet the diagnostic criteria.

43. Severe Crohn's Disease

Crohn's Disease is a chronic, transmural inflammatory disorder of the bowel. To be considered as severe, there must be evidence of continued inflammation in spite of optimal therapy, with all of the following having occurred:

- Stricture formation causing intestinal obstruction requiring admission to Hospital, and
- Fistula formation between loops of bowel, and
- At least one bowel segment resection.

The diagnosis must be made by a registered Medical Practitioner who is a specialist Gastroenterologist and be proven histologically on a pathology report and/or the results of sigmoidoscopy or colonoscopy.

44. Bacterial Meningitis

Bacterial infection resulting in severe inflammation of the membranes of the brain or spinal cord resulting in significant, irreversible and permanent neurological deficit. The neurological deficit must persist for at least 6 weeks resulting in permanent inability to perform three or more Activities of Daily Living.

This diagnosis must be confirmed by:

- a. The presence of bacterial infection in cerebrospinal fluid by lumbar puncture; and
- b. A consultant neurologist certifying the diagnosis of bacterial meningitis.

Activities of Daily Living are defined as:

- a. Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means.
- b. Dressing: the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances.
- c. Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa.
- d. Mobility: the ability to move indoors from room to room on level surfaces.
- e. Toileting: the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene.

Generali Central Linked Critical Illness Rider

Non- Par, Linked, Health Individual, Pure Risk Premium Rider

Date:

UIN: 133A057V01

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

f. Feeding: the ability to feed oneself once food has been prepared and made available.

45. Necrotizing Fasciitis

The occurrence of necrotizing fasciitis where the following conditions are met:

- (i) the usual clinical criteria of necrotizing fasciitis are met; and
- (ii) the bacteria identified is a known cause of necrotizing fasciitis; and
- (iii) there is widespread destruction of muscle and other soft tissues that results in a total and permanent loss of function of the affected body part.

The Unequivocal Diagnosis must be made by a Specialist in the relevant medical field.

46. MUSCULAR DYSTROPHY

Diagnosis of muscular dystrophy by a registered Medical Practitioner who is a neurologist based on the presence of following conditions:

- 1. Clinical presentation including weakness and loss of muscle mass, absence of sensory disturbance, normal cerebrospinal fluid and mild tendon reflex reduction.
- 2. Characteristic electromyogram
- 3. Clinical suspicion confirmed by muscle biopsy.

The condition must result in the inability of the Insured Person to perform (whether aided or unaided) at least three of the Activities of Daily Living, for a continuous period of at least 6 months.

For the purpose of this clause, Activities of Daily Living are defined as:

- a. Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means.
- b. Dressing: the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances.
- c. Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa.
- d. Mobility: the ability to move indoors from room to room on level surfaces.
- e. Toileting: the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene.
- f. Feeding: the ability to feed oneself once food has been prepared and made available.

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

47. Poliomyelitis

The occurrence of Poliomyelitis, where the following conditions are met:

- I. Poliovirus is identified as the cause through laboratory investigation.
- II. Paralysis of the limb muscles or respiratory muscles must be present and persist for at least 3 months.

The diagnosis of Poliomyelitis must be confirmed by a registered Medical Practitioner who is a neurologist.

48. Tuberculous Meningitis

Meningitis caused by tubercle bacilli. Such a diagnosis must be supported by:

- 1) Findings in the cerebrospinal fluid (csf) report
- 2) Presence of acid fast bacilli in the cerebrospinal fluid or growth of M. Tuberculosis demonstrated in the culture report or Nucleic acid amplification tests like PCR
- 3) Certification by a registered doctor who is a specialist in neurology, or a physician with a degree of MD

The condition must have resulted in irreversible and permanent neurological deficit which persist for at least 6 weeks and resulting in permanent inability to perform three or more Activities of Daily Living.

Activities of Daily Living are defined as:

- a. Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means.
- b. Dressing: the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances.
- c. Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa.
- d. Mobility: the ability to move indoors from room to room on level surfaces.
- e. Toileting: the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene.
- f. Feeding: the ability to feed oneself once food has been prepared and made available.

Generali Central Life Insurance Company Limited
(formerly known as Future Generali India Life Insurance Company Limited)

IRDAI Registration No. 133; CIN: U66010MH2006PLC165288

49. Encephalitis

Severe inflammation of the brain tissue due to infectious agents like viruses or bacteria which results in significant and permanent neurological deficits for a minimum period of 6 weeks, certified by a specialist Medical Practitioner (Neurologist)

The permanent deficit must result in permanent inability to perform three or more Activities of Daily Living.

Activities of Daily Living are defined as:

- a. Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means.
- b. Dressing: the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances.
- c. Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa.
- d. Mobility: the ability to move indoors from room to room on level surfaces.
- e. Toileting: the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene.
- f. Feeding: the ability to feed oneself once food has been prepared and made available.

50. Primary Myelofibrosis

A disorder which can cause fibrous tissue to replace the normal bone marrow and results in severe anemia below 10 g/dl, low platelet count below 100,000 micro and enlarged spleen. The condition must have progressed to the point that it is permanent, and the severity is such that the Insured.

Person requires a blood transfusion at least monthly over at least six (6) consecutive months. The diagnosis of Primary Myelofibrosis must be supported by bone marrow biopsy and confirmed by a registered Medical Practitioner who is a specialist.

Secondary Myelofibrosis is excluded.

51. Pheochromocytoma

Presence of a neuroendocrine tumor of the adrenal or extra-chromaffin tissue that secretes excess catecholamines requiring the actual undergoing of surgery to remove the tumor.

The Diagnosis of Pheochromocytoma must be supported by plasma metanephrine levels and / or urine catecholamines and metanephrines and confirmed by a registered doctor who is an endocrinologist.

52. Systemic Lupus Erythematosus with Renal Involvement

I. Multi-system, autoimmune disorder characterized by the development of autoantibodies, directed against various self-antigens. For purposes of the definition of "SLE" under this policy is restricted to only those forms of systemic lupus erythematosus, which involve the kidneys and are characterized as Class III, Class IV, Class V or Class VI lupus nephritis under the Abbreviated International Society of Nephrology/Renal Pathology Society (ISN/RPS) classification of lupus nephritis (2003) below based on renal biopsy.

Diagnosis by a nephrologist, supported by renal biopsy report is mandatory. There must be positive antinuclear antibody test

II. The following are excluded

- i. Other forms such as discoid lupus, and those forms with only hematological and joint involvement are specifically excluded.
- ii. Class I – Minimal mesangial lupus nephritis
- iii. Class II – Mesangial proliferative lupus nephritis

53. Eisenmenger's Syndrome

Development of severe pulmonary hypertension and shunt reversal resulting from heart condition. The diagnosis must be made by a registered Medical Practitioner who is a specialist with echocardiography and cardiac catheterization resulting in permanent physical impairment to the degree of New York Heart Association Classification Class IV, or its equivalent, based on the following classification criteria:

Class IV - Inability to carry out any activity without discomfort. Symptoms of congestive cardiac failure are present even at rest. With any increase in physical activity, discomfort will be experienced.

54. Loss of Use of One Limb and Loss of Sight in One Eye

To be eligible, both the conditions should be fulfilled.

- o The complete and permanent loss of use of one (1) arm or one (1) leg, through paralysis caused by illness or injury persisting for at least six (6) months from the date of trauma or illness as certified by medical specialist, plus.
- o Total, permanent and irreversible loss of sight in one eye as a result of illness or accident, which must be certified by an ophthalmologist.

55. Refractory Heart Failure

Refractory Heart failure is defined as a systolic or diastolic dysfunction which meets all of the below criteria

- a. Heart Failure has reached cardiac impairment of Stage D of ACC/AHA classification for a continuous period of least six months and
- b. Heart Failure that does not respond to optimal medical therapy ("triple therapy") and

c. results in Ejection fraction of the heart is less than or equal to 30%, as measured by Echocardiogram. The diagnosis must be confirmed by a Cardiologist

The following is excluded:

- Reversible causes of heart failure such as hypocalcemia, anaemia.
- Heart Failure secondary to alcoholism and drug abuse.

56. Takayasu Arteritis

It is a specific kind of arteritis, and the inflammation damages the aorta and its main branches resulting in the medically necessary bypass surgery or aortic valve surgery. The diagnosis has to be confirmed by a specialist medical practitioner and substantiated by typical findings in angiography.

57. Severe Guillain-Barre Syndrome

It is a disorder in which the immune system of a person attacks the person's peripheral nervous system resulting in irreversible and permanent neurological deficit which persist for at least 6 weeks and resulting in permanent inability to perform three or more Activities of Daily Living. The diagnosis has to be confirmed by a neurologist and substantiated by typical findings in CSF, EMG and NC studies.

Activities of Daily Living are defined as :

- a. Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means;
- b. Dressing: the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances;
- c. Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa;
- d. Mobility: the ability to move indoors from room to room on level surfaces;
- e. Toileting: the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene;
- f. Feeding: the ability to feed oneself once food has been prepared and made available.

58. Spinal Stroke

Death of spinal cord tissue due to inadequate blood supply or hemorrhage within the spinal canal resulting in neurological deficit with persisting clinical symptoms.

Evidence of permanent neurological deficit lasting for at least 3 months has to be produced. Diagnosis has to be confirmed by a specialist medical practitioner and evidenced by typical clinical symptoms as well as typical findings in CT scan or MRI.

59. Benign Spinal Cord Tumor with Neurological Deficit

Benign spinal cord tumor is defined as a life threatening, non-cancerous tumor of the spinal cord or its meninges. The presence of the underlying tumor must be confirmed by imaging studies such as CT scan or MRI. This spinal cord tumor must result in Permanent Neurological deficit with persisting clinical symptoms for a continuous period of at least 90 consecutive days and must be confirmed by the relevant medical specialist. The Neurological deficit must result in permanent inability to perform three or more Activities of Daily Living.

Activities of Daily Living are defined as :

- a. Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means;
- b. Dressing: the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances;
- c. Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa;
- d. Mobility: the ability to move indoors from room to room on level surfaces;
- e. Toileting: the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene;
- f. Feeding: the ability to feed oneself once food has been prepared and made available.

60. Severe Progressive Bulbar Palsy

Neurological disorder with paralysis in the head region, difficulties in chewing and swallowing, problems in speaking, persistent signs of involvement of the spinal nerves and the motor centres in the brain and spastic weakness and atrophy of the muscles of the extremities. The disease must be Unequivocally Diagnosed by a Medical Practitioner who is a neurologist. The condition must result in the permanent inability to perform, without assistance, at least three (3) of the six (6) Activities of Daily Living. These conditions have to be medically documented for at least three (3) consecutive months.

The Activities of Daily Living are:

- I. Washing: the ability to wash in the bath or shower (including getting into and out of the bath or shower) or wash satisfactorily by other means;
- II. Dressing: the ability to put on, take off, secure and unfasten all garments and, as appropriate, any braces, artificial limbs or other surgical appliances;
- III. Transferring: the ability to move from a bed to an upright chair or wheelchair and vice versa;
- IV. Mobility: the ability to move indoors from room to room on level surfaces;
- V. Toileting: the ability to use the lavatory or otherwise manage bowel and bladder functions so as to maintain a satisfactory level of personal hygiene;
- VI. Feeding: the ability to feed oneself once food has been prepared and made available.
